Roles and Responsibilities:

Responsibilities for the role will include, but not be restricted to:

- Working as part of a team to design and set high-quality, safe boulder problems.
- Working within the Safety Management Plan to ensure the setting process is conducted safely, and that boulders are safe for the public.
- Organizing and cleaning climbing holds and equipment.
- Assisting with cleaning and general maintenance of the facility where needed.
- Contributing to a positive workplace culture by supporting other members of staff in their daily operations.
- Working within a safety management plan and exercising industry leading safe work practices.
- Ensuring sign off on each set is completed by the Manager prior to customers being permitted to climb.
- Developing and maintaining relationships and goodwill with customers, suppliers and stakeholders.
